WORK EXPERIENCE

Backend developer

Niyel Technologies [03/10/2022 – Current]

City: Nicosia

Country: Cyprus

Backend development of Neresde, a smart shopping assistant. The application collects price data of market items through crowd-sourcing. Users scan their market receipts or item labels and the system extracts all the items along with their prices and stores them in a database. The project involves a team of 4 developers.

Responsibilities for the project:

1. Creation and maintenance of MySQL database.
2. Authentication services.
3. Creation and management of REST API to provide all services required by the frontend.
4. Management of external API services such as Google cloud vision.
5. Creation and management of queued jobs to handle asynchronous background jobs such as receipt/label processing.

FullStack developer

Niyel Technologies [03/07/2022 – 03/10/2022]

City: Nicosia

Country: Cyprus

1. Development of a full stack mobile shopping list application.
2. Feature to share lists with friends.
3. Backend api built using Laravel (php).
4. Frontend mobile application built using Flutter.

FullStack developer

Information Systems Branch Office, Antalya metropolitan municipality [13/09/2021 – 08/10/2021]

City: Antalya

Country: Türkiye

1. Development of an application to keep track of the menus of the day for the municipal cafeteria
2. Google Firebase used as a Backend as a service (BaaS).
3. Frontend mobile application built using Flutter.
